Raingutter Regatta Time Sheet

Cub Scout Pack 49
Denison, Iowa

Race Procedure

Hands are not allowed to assist the boat, only to upright it if the boat falls completely over. Each scout will have 3 turns to blow his boat down a 10-foot section of raingutter (capped and filled with water of course). Each scout in the den will have a chance to blow for the first time before turn number 2 and likewise for turn number 3. Each turn is timed and recorded. The top three times from all of the turns will be taken and medals will be awarded to those scouts. **In the event of a tie, the scouts' other 2 times will be averaged to determine who was faster overall.**

Remember to record times up to 100th of a second. For example, 13.45 seconds.

Den(s): _____ Timekeeper: _____

Scout	1st Run	2nd Run	3rd Run	Fastest of 3

Place	Scout	Time
First Place		
Second Place		
Third Place
